EDUCATION

- National Institute Of Technology,Patna** 2024-27
MCA(Data Science and Informatics) CGPA:8.80
- ST JAMES SCHOOL,RAEBARELI** 2020
Class XII (ISC) Percentage: 87.5
- ST JAMES SCHOOL,RAEBARELI** 2018
Class X (ICSE) Percentage: 88

PERSONAL PROJECTS

- Urban Heat Island Analysis & Cooling Strategy Optimization** GitHub
AI-Driven Land Surface Temperature Prediction
– Tools & Technologies: Python, XGBoost, Random Forest, SHAP, GIS
– Developed an AI framework using 140K+ geospatial observations for temperature prediction.
– Achieved $R^2 \approx 0.97$ and $RMSE \approx 1.39^\circ C$ using XGBoost and Random Forest.
– Applied SHAP explainability analysis to identify major urban heat drivers and mitigation strategies.
- Enterprise Knowledge Assistant**
RAG-Based Document Intelligence Platform
– Tools & Technologies: Python, FAISS, Sentence Transformers, Gemini, Streamlit, SQLite
– Built a Retrieval-Augmented Generation (RAG) platform for semantic search across enterprise documents.
– Implemented FAISS vector indexing and contextual retrieval using embedding models.
– Integrated Gemini LLM with citation-aware responses and chat history persistence.
- Vendor Invoice Intelligence System**
Freight Cost Prediction & Invoice Risk Detection
– Tools & Technologies: Python, SQL, Scikit-learn, Streamlit, Pandas
– Processed 2.3M+ purchase records and 5,500+ vendor invoices for freight cost prediction.
– Built ML models achieving $R^2=0.99$ and invoice risk detection accuracy of 89%.
– Developed a Streamlit dashboard for real-time freight estimation and anomaly detection.

TECHNICAL SKILLS AND INTERESTS

Languages: Python, Java, SQL, C, HTML, CSS

Developer Tools:Git, GitHub, VS Code, Jupyter Notebook, Google Colab, SQL Server Management Studio (SSMS)

Frameworks/Libraries: Scikit-learn, XGBoost, PyTorch, Pandas, NumPy, Matplotlib, OpenCV, NLTK, FAISS, Sentence Transformers, Streamlit

Cloud/Databases: SQL Server, SQLite

Soft Skills: Problem Solving, Analytical Thinking, Teamwork, Leadership

Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems,Artificial Intelligence, Machine Learning, Deep Learning,Big Data Analytics

Areas of Interest: Data Science, Artificial Intelligence, Machine Learning, Software Development

ACHIEVEMENTS

- AIR 738 NIMCET 2024** 2024
- LeetCode** Solved 300+ Data Structures & Algorithms Problems <https://leetcode.com/u/mrrichee/>
- UPSC NDA-I Written Examination** Qualified 145th Course 2020
- Academic Excellence** Scored 100/100 in ICSE Computer Science and 98/100 in ISC Computer Science 2018, 2020
